

Online Help to Sell

I help real estate agents, home stagers, and homeowners nationally to sell their homes. This is done by email using photos and answering questions about the property.

You are sent a questionnaire, instructions, and communication is ongoing until a final report is completed and emailed to you. In using Feng Shui to transform a home to sell quickly, many things are considered and looked at not thought of by other real estate professionals.

Both the inside and outside are examined thoroughly!

Selling a home is a science. I have spent over 30 years perfecting how to show a home for top dollar and for a quick sale. Let me lend you a hand, and get the job done for you! Feng Shui makes the job so much easier.

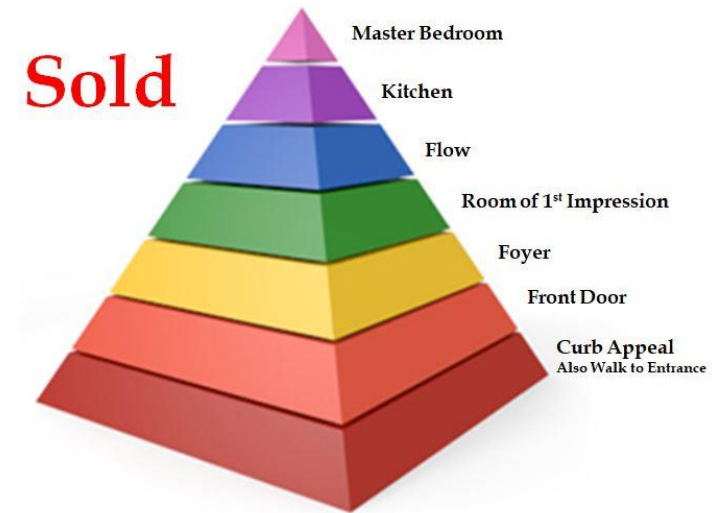

How much does it cost?

The cost is \$350!

With you being my eyes and forwarding me the photos necessary, a home can be transformed into one that stands out in a BIG way. My report will take you through the transformation step-by-step. Many homes for sale don't get a buyer interested, let alone excited. Your home needs to show in a special way on the internet, from the street, and during a showing.

Feng Shui makes a buyer (while online) to stop and spend more time on your home while viewing hundreds of active listings. Therefore, traffic will increase.

And then, when they visit your home, Feng Shui improvements “kicks-in” even more and makes a house more comfortable and more memorable.

Let's get your **home sold quickly!**
We can make your home stand out easily by making some **inexpensive changes**. The selling of a home comes down to how it makes the buyer FEEL. The changes you will make from my report are easy to implement but will require some effort. Many sellers fail because they don't have a **step-by-step plan** to follow. I usually ask a client to set aside a week, and possibly more, to make the transformation.
